

## MASSACHUSETTS FY-04

### Agricultural Management Assistance (AMA) Approved Conservation Practice List<sup>1/</sup>

Practice Name	Code	Unit	Basis for Flat Rate <sup>2/</sup>
Critical Area Planting <sup>3/</sup>	342	Ac.	75% of Average Cost
Irrigation Water Conveyance <sup>4/</sup>	430	Ft.	75% of Average Cost
Irrigation Storage Reservoir	436	No.	75% of Average Cost
Irrigation, Microirrigation <sup>4/</sup>	441	No./Ac	75% of Average Cost
Irrigation System, Sprinkler <sup>4/</sup>	442	No./Ac	75% of Average Cost
Irrigation Water Management <sup>4/</sup>	449	Ac.	\$10/acre/year x 3 years
Well	642	No.	75% of Actual Cost

<sup>1/</sup> Soil moisture management practices, such as Cover Crop, Contour Farming, Residue Management, Mulching and Stripcropping, should be included in the supporting conservation plan in order to adequately plan the crop management unit for drought mitigation..

<sup>2/</sup> See FY-04 AMA Cost List for details on rates and amounts of payments.

<sup>3/</sup> Critical Area Planting is authorized only as a supporting practice of one of the primary irrigation practices.

<sup>4/</sup> Practice is limited to non-cranberry operations for drought mitigation purposes.
